HR MANAGER • GO MY CODE • HACKERSPACE SOUSSE

13/04/2022

Dear Mr.,

I am writing to express my interest for an internship in Go My Code company. I would like to apply for a three months starting in June 2022 in order to improve my practical skills in Web Development.

I had the opportunity to complete my studies as Textile engineer and a PhD on science materials .It helped me master science materials fields and be more creative and responsible for environnement issues .I had also 6 years of experience in both industry and research center as project manager and R&D Engineer. And this, help me to improve my ledearship and my technical expertise in different fields(automotive industry,plastic process..). Working with a startup of industrial prototyping as a Technology watch officier give me more chance to enlarge my knowladge in IT and Energy fields. My reconversion in IT allowed me to increase my curisosity, strengthen my critical thinking and confirm to me that I can assimilate information quickly.

I am extremely motivated by the new opportunity that Go My Code could offer to me. Joining your progressive and competitive company will allow me to expand my skills and my expertise towards towards realizing your company values.

In addition, I will achieve intern-ship objectives with creativity, autonomy and dynamism, if my application may interest you. If you need further information, or if you have any questions, please feel free to contact me. I am looking forward to hearing from you soon and I am interesting to meeting with you in order to further discuss my application.

Sincerly,

AMANI BOUZOUITA
